my roommate just gave me her betta that she didn’t want

so how about shoes you use on cardio machines like the elliptical or for spinning? or cardiodance classes?

marijuana has been used as a natural herbal medicine since ancient times

does that mean that those are their standards but manufacturers may not follow them? if so, does it mean anything to give out the .09 information?

in this population-based case–control study we found that the use of non-selective nsaids or cox2is was associated with an increased risk of vte
